

# **International Pricelist De Hekserij**

**May 2012**

## **We ship to almost all countries**

With exception of some inflammable materials we ship all products to all countries, except the USA and Canada, we do not ship to these countries.

## **We sell to individuals, schools, businesses: everyone**

### **Ordering**

Please send us an email (hekserij@hekserij.nl) in which you attach the order form from our website. In case you are an EU based business and have a VAT number: please let us know, in that case we can send the items intracommunal.

We will let you know the total cost of the order. You can pay by bank or (outside the Netherlands) with Paypal.

### **Use**

All our products are only intended for use in research and development or for educational purposes. We can sell products intended for small scale production, but due to the complicated rules for export and the relatively small amounts involved it is not economic to sell these outside The Netherlands. Dutch companies that want to use our products for other uses than stated before need to contact us before their first order.

Our products are NOT intended for use in food, NOT for producing flavours. We can not guarantee that our products can be used safe in this type of products.

Our products are NOT intended for any medical use, the products are NOT suitable for internal use, with exception of some products that might be usable for oral care products.

### **Prices**

Prices are in EURO and include 19% VAT (left column, the right is without VAT). In case you live outside the EU or have a EU VAT number we can sell without VAT. Prices can change at any moment, we will inform you about price changes before you pay.

**Brand names**

In aroma trading it is common to use well known trade names for certain products, even if the product involved is not made by the owner of the brand name. For instance: the Hedione we sell is not necessarily made by Firmenich, though Firmenich is the owner of the brand name Hedione. Summarised: when we use brand names this does not always mean that the product is made by the brand name owner.

In case we mention the name of a supplier in the description this means that we guarantee that the product is made by the company mentioned.

**Restricted items**

Some of our items have sale restrictions, see page 3 for more information

**De Hekserij**

De Hekserij is a Dutch business. We sell raw materials for R&D and educational purposes.

Note that for this reason most of our products have a label in the Dutch language on them. This includes legal information regarding safety and environment.

Our address is:

De Hekserij

Spoorstraat 57

8271RG IJsselmuiden

The Netherlands

**Contact**

Please use email: [hekserij@hekserij.nl](mailto:hekserij@hekserij.nl)

### **Restricted items**

Some of our items are not shipped or only in small amounts to some destinations. This is partly because of legal issues, partly because we don't want our products to be used for dangerous and unintended uses.

#### **The following products are restricted:**

23004 Benzaldehyde [*Abuse as drugs precursor*]

23008 Benzyl alcohol [*Abuse as solvent for injectables*]

23026 Benzyl benzoate [*Abuse as solvent for injectables*]

23049 Anisaldehyde [*Abuse as drugs precursor*]

23079 Helional [*Abuse as drugs precursor*]

Only small amounts are sold, maximum amount depending on destination.

29550 Cosmetic hairwater [*Extremely flammable*]

Only sold to the following countries: BE, DE, DK, FR, LX, NL

Outside the Netherlands we only ship 2 liters per parcel.

Products indicated with **FLAM** are flammable and will only be sold in relatively small amounts, and not to all countries:

BE, NL: usually no restrictions

DE, DK, FR, LX: usually less than 500 g

ES, IT, AT: usually less than 250 g

All other countries: usually not available for shipping
